PROFESSIONAL SUMMARY

Full-Stack Web and Mobile Developer with experience building and maintaining enterprise applications using React.js, TypeScript, Kotlin, React Native, NestJS, Node.js, Laravel, and PostgreSQL. Skilled in developing RESTful APIs, responsive user interfaces, mobile applications, database-driven systems, dashboards, and reports. Experienced in solving real-world business problems, debugging applications, improving performance, and collaborating with development teams using Git.

TECHNICAL SKILLS

Frontend	React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
Mobile	Kotlin, React Native
Backend	NestJS, Node.js, Express.js, Laravel, PHP
Databases	PostgreSQL, MySQL
ORM	TypeORM
App Distribution	Google Play Console
Deployment and Operations	NSSM, Windows Services, On-Premises Deployment
Cloud and Hosting	AWS (EC2), DigitalOcean Droplets, Cloudflare Pages, Vercel, GitHub Pages
Tools and Platforms	Git, GitHub, Postman, Visual Studio Code, Ubuntu Linux
Development Skills	AI-Powered Development: AI-assisted coding, research, debugging, workflow automation, and technical problem-solving; RESTful APIs, CRUD Operations, Responsive Web Design, Database Design, Form Validation, Filtering, Pagination, Dashboards and Reporting

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

M-Tech (Myo & Moe Technology Co., Ltd.) | January 2026 - Present

- Develop and maintain enterprise web applications using React.js, TypeScript, NestJS, and Node.js.
- Build and maintain RESTful APIs for frontend applications and system integrations.
- Integrate PostgreSQL and MySQL databases and maintain entities and relationships using TypeORM.
- Implement CRUD operations, dashboards, reports, search, filtering, pagination, and form validation.
- Identify and resolve frontend, backend, API, and database issues while improving performance.
- Test API endpoints with Postman and collaborate using Git and GitHub.

EDUCATION

Bachelor of Arts in Geography

Pinlon University

LANGUAGES

Pa-O: Native | Burmese: Fluent | English: Intermediate

SELECTED ENTERPRISE PROJECTS

Smart Car Parking Management System

[React.js](#) | [TypeScript](#) | [NestJS](#) | [PostgreSQL](#) | [AI Camera](#)

- Developed parking transactions, dashboards, reports, passes, and rate-management features.
- Integrated an AI-powered camera system for automatic vehicle license-plate detection and recognition.

Smart Factory Management System

[React.js](#) | [TypeScript](#) | [NestJS](#) | [PostgreSQL](#) | [Kiosk Hardware](#)

- Developed production planning, job and machine monitoring, and QR-code management features.
- Built warehouse and inventory-management functionality.
- Contributed to the OEE dashboard, production reports, and operational data views.
- Integrated frontend components with RESTful APIs, validation, filtering, and pagination.
- Integrated kiosk hardware with backend APIs for on-site production workflows and real-time operational updates.

Blood Bank Management System

[React.js](#) | [TypeScript](#) | [NestJS](#) | [PostgreSQL](#)

- Developed donor, blood inventory, blood request, and hospital-management features.
- Implemented CRUD operations and form validation for operational records.
- Created and integrated RESTful APIs with PostgreSQL.
- Supported database integration, troubleshooting, and user-friendly interfaces.

PERSONAL PROJECTS

YBS Way - Public Transportation Mobile App

[Kotlin](#) | [Android](#)

- Developed a native Android application with Kotlin for YBS bus-route search and transportation information in Yangon.
- Created reusable native Android UI components and managed navigation between application screens.
- Organized route information clearly across different Android screen sizes.

Live app: ybs-way-web.pages.dev

Spendly - Expense Tracker Mobile App

[React Native](#) | [TypeScript](#)

- Developed a mobile application for tracking personal income and expenses.
- Implemented create, view, edit, and delete workflows with income and expense categories.
- Built spending summaries, a user-friendly interface, and efficient state management.
